From the New England Farmer.

Corn Stalks And Manure in the West.

Sugar Cane.

FRIEND BROWN:—I noticed, in a late number of the New England Farmer, a short article written from Buchanan County, by "H. W." on this subject, and being somewhat surprised at the idea that manure is useless to the soil, my pen is called up. If friend W. has never seen manure applied to any crop but wheat, and has not thought of the great contrast there is between the wheat and corn crop, in relation to their growth, it may not be strange that he should so write, for the soil surely is as rich as wheat or oats will bear, but corn, perhaps, cannot be driven too hard. I have tested the use of manure in Iowa, and witnessed the effect where used by others for corn, and think I never saw greater increase of crop by the application of manure in any country. While the soil here is very rich and deep, still it is not inexhaustible, it will wear out, and my idea is, that it would be better to try to keep it up while it is rich, than by and by to have to reclaim it or emigrate to the West. Corn stalks should always be plowed in where they will not too much interfere with tending the next year.

While I am writing, I will say that the experiment with the Chinese Sugar Cane this year has been very satisfactory here. Those who have tried it, think it worth attention. One temporary crusher has been going within our hearing for a month. It is believed that it will make sugar, though it is of course stated that it will not grain.

TO SAVE TOOLS, &c., FROM RUSTING.—The following is an exceedingly simple, cheap and effective preparation, and available to all, which will at least save all metals from loss by rust.

Take about three pounds of lard and one pound of resin. Melt them together in a basin or kettle, and rub over all iron or steel surface in danger of being rusted. It can be put on with a brush or piece of cloth, and wherever it is applied it most effectually keeps air and moisture away, and of course prevents rust. When knives and forks, or other household articles, liable to become rusted or spotted, are to be laid away, rub them over with this mixture, and they will come out bright and clean even years afterwards. The coating may be so thin as not to be perceived, and it will still be effectual. Let every one keep a dish of this preparation on hand. And it does not spoil of itself, it may be kept ready mixed for months or years. Mem.—Fresh lard, containing no salt, should be used. Resin is a cheap article, and may be obtained almost anywhere for four to six cents per pound.—Amr. Agr.

URINE.—Sir John Sinclair, speaking of the value of this fertilizing agent, says, "Every sort of urine contains the essential elements of vegetables in a state of solution. The urine of a horse being so much lighter, would be more valuable than the dung, if both must be conveyed any considerable distance.—The urine of six cows, or horses, will enrich a quantity of earth sufficient to top-dress one English acre of grass land, and as it would require about twenty dollars worth of dung to perform the same operation, the urine of a cow or horse is worth about three dollars per annum, allowing two dollars per acre as the expense of preparing the compost. The advantages of irrigating grass lands with cow urine almost exceeds belief. Mr. Hardy, of Glasgow, who keeps a large dairy in that town, by using cow urine, cuts some small fields of grass six times; and the average of each cutting is fifteen inches in length." If this is all true, farmers should exert their utmost efforts to economize this substance, and apply it to their crops with great care. It is, undoubtedly, a most energetic and efficient fertilizer, and one which we are inclined to think, has been allowed to run greatly to waste.—N. E. Farmer.

ORIGIN OF A DELICIOUS FRUIT.—About 80 years ago a well known sportsman and cattle dealer in Philadelphia, familiarly known as "Dutch Jacob," would every autumn on returning from his shooting excursions, regale his neighbors with pears of an unusually delicious flavor, but kept their place of growth a secret. At length the Holland Tract Company disposed of a large tract in parcels, and Dutch Jacob secured the ground on which his favorite pear tree stood, a fine strip of land near the Delaware.—Not long after, it became the farm of Mr. Seckel, who introduced the fruit to public notice, and it received his name. The original tree is still vigorous and fruitful.

PROFITS OF THE GREAT FARM.—The report of the United States patent office thus states the value of the leading crops of the country for 1856: Indian corn \$360,000,000; wheat \$247,500,000; hay and fodder \$160,000,000; pastureage \$143,000,000; cotton \$136,000,000; oats \$69,000,000; garden products \$50,000,000; potatoes \$41,250,000; sugar \$35,000,000; orchard products \$25,500,000; total \$1,366,250,000.

Newport Daily News

THURSDAY MORNING, NOV. 26, 1857

"Finance is the system of valuations and accumulation; therefore it comprehends all subsidiary matters."

Either some folks are a great deal wiser than the dictionary-makers, or they are not near so wise as they imagine. For instance a N. Y. Bank Note Reporter, which some what ostentatiously styles itself the "Journal of Finance," has the wisdom to parade at mast head, as its motto, the lines above quoted, which first assume to define the word "finance," and then to draw from the definition an inference rather bigger than we ever before heard of any body trying to extract from such small premises.

That "finance is the system of valuations and accumulations," though not precisely according to Dr. Webster, is not a very bad definition; but, to say that "therefore, it comprehends all subsidiary matters," is an absurdity so monstrous, that one would think it only needs to be stated, to be obvious to the slenderest mind. How any man of common sense can go on repeating such a foolish statement, week after week, and still expect people to put confidence in his judgment in money matters or any thing else, is beyond our comprehension.

THE PRESIDENT'S MESSAGE.—Our Washington correspondent intimates that President Buchanan will depart from the sensible custom established of late years, and refuse to allow his message to be printed in advance of its delivery to Congress, so that it may be sent to the principal cities in the country to be published simultaneously with its reading in Congress. We hope that the President will not pursue a course so nearly allied to the "red-tapeism" of English official proceedings. The annual message of the President is in reality prepared more for the information of the people than for Congress, in which body it often lies for several weeks after delivery without notice, and there is no good reason why it should not be spread before the country at the earliest moment. The administrative policy developed in the President's messages is always of deep importance to the financial and political interests of the nation, and there is no propriety in withholding these documents from the people, merely for the sake of an official form. The days of "circumlocution" are fast passing away, and we do not wish to see it re-established in this country.—Boston Journal.

MORE CHEERFUL.—The Philadelphia Inquirer remarks:

"The panic has done its worst. We have evidently passed the turning point, and from this moment a gradual and general improvement may be safely and surely anticipated. The newspapers from all the industrial districts announce partial or entire resumption of active operations by many of the factories which had suspended. Merchants who were temporarily embarrassed, have recommenced business, and a severe lesson of economy and prudence has been taught, by which the nation at large will learn moderation, and derive a profit of incalculable value in the future. We repeat—a good time is coming."

LARGE SHIPS UNPROFITABLE.—The London correspondent of the Philadelphia N. American says:—Mr. W. S. Lindsay, a large ship owner, one who does a very considerable carrying trade to all parts of the world, lately, at a public meeting, expressed himself opposed to large ships. He stated that gigantic vessels were a positive injury to the navigation trade; that America had found it out to her cost, and had almost ceased to build; that very little building in England was going on at present, which would be proved to be all for the good of the carrying trade. Vessels over 1,800 tons were a positive loss to their owners, and the Great Eastern, he predicted, would therefore prove a dreadful failure.

The derangement of the currency in this city still continues to the grievous annoyance of the business men who have payments to make at the Banks. Hardly a dollar of Massachusetts money can be obtained, unless at a premium of 5 per cent, and this state of things compels the Banks to curtail their loans. The prophecy that the suspension of the Banks would make money easier, has not proved true, in this quarter, at least. We are almost inclined to offer a reward for the sight of a Massachusetts Bank Bill.—Prov. Trans.

Col. Thomas H. Benton has published a long communication, in a Washington paper, on the Banks and the Currency. It is designed to meet the suggestions in favor of the establishment of a National Bank, which have appeared in the public journals since the commencement of the existing financial revolution. The Colonel still cherishes his ancient enmity to bank notes, and warmly advocates the "mint-drop" currency.

The watchmen at New Haven early on Friday morning discovered a bright light in the lower part of a wooden building on the west end of the Grand street railroad bridge. Bursting in the door they discovered a straw bed in full blaze against a partition which enclosed the stairway to the chambers where were about a dozen persons were sleeping. The design of the incendiaries evidently was to cut off escape after the fire was discovered. Camphene had been sprinkled about the room to assist the conflagration.—Prov. Trans.

A SPLIT IN THE PRESIDENT'S PARTY.—The Administration newspapers of the North are divided in sentiment concerning the Kansas Constitution. It is denounced by the Chicago Times, (Douglas's organ), the Detroit Free Press, (the organ of Gen. Cass), Providence Post, Albany Atlas, Philadelphia Press, Buffalo Courier, Rochester Union, Seneca Observer, and other organs of the party; while the official mouthpiece of the President, the Washington Union, unqualifiedly commends the obnoxious document as the harbinger of political peace and harmony.—Boston Bee.

LOCAL NEWS.

The tower and spire of Emmanuel Church are nearly finished. They are of graceful proportions and add much to the fine appearance of the whole structure. The lower story forms a porch for one of the entrances, and the entire height is one hundred and fifteen feet.

Gas has been brought into this church, and it will be lighted up for the first time on Christmas Eve.

The Offerings in Emmanuel Church on Thanksgiving Day will be for the relief of the poor. Service to commence at half past ten o'clock.

To-day being Thanksgiving and a general Holiday, in the pleasures of which printers, as well as others wish to participate we shall not issue our paper To-morrow (Friday) morning.

On Thanksgiving Day the Post Office in this City, will be closed from Half-past 9 o'clock a. m., until 3 p. m.

THE PRESS APPRECIATED.—Among the results of the New York State Election, we observe the following items, which look especially well for the newspaper fraternity: Gideon Tucker, editor of the N. Y. Daily News, elected Secretary of State.

Moses S. Beach, publisher of The Sun, New York city, but resident in Brooklyn, elected to the Assembly from the latter city.

Allen W. Eaton, publisher of the Mohawk Courier, at Little Falls, elected Treasurer of Herkimer County.

The gentleman last named is a Republican—the others pertaining to the so-called Democratic party.

Correspondence of the Daily News.
New York, Nov. 24, 1857.

Mr. Editor.—I gave you, in my last, what I had not before been in the habit of giving, viz., a detail of the shocking crimes of a simple description—stabbing—which were perpetrated in this city during the week; but as the week at the time I wrote, was not fully completed, I find there are four cases to be added to the list, as follows:

Friday Evening, Nov. 20. An apple woman at No. 290 Water-street, (name not given) was stabbed by a man named Thos. Price, who was arrested.

Saturday, p. m. At a sailor boarding-house, No. 60 Cherry-street, John Davis was stabbed by James Fisher. D. was said to have been the aggressor, having run into the house with a drawn knife and threatened the inmates. Saturday Evening. John Burns, standing on the corner of Pearl and Vandewater-streets, was stabbed by three ruffians who came along.

Sunday Morning. John Downey, clerk at an oyster saloon, 240 Tenth Avenue, was stabbed by Edw. Carroll, one of a gang of desperadoes who had called for refreshments and would not pay.

These items, added to those enumerated in my last, complete the list of stabbings—about one dozen in number—which took place here last week. Several of the victims are already dead, and some of the others will most likely follow. I believe that by far the larger part of the perpetrators are still at large, and many of them unknown. I think we have never had so many assassinations, successful and attempted, in that horrid mode, in a single week since the city was founded. These crimes are supposed by some to have been committed by a gang of Spanish convicts, sent awhile ago from Spain to Cuba, and for some reason, arriving at this port—their ship said to be still lying at Brooklyn, and the convicts dispersed about the two cities. One of these villains has been identified as among the assassins at Dissoll's dance house in Water-street.

But this list of horrors does by no means fill up the measure of last week's crime in New York. An infamous outrage upon a young woman named Rosa Martin, corner 27th street and 9th Avenue, of two-legged brutes—an attempt to garrote and murder Dr. Alex. B. Mott, in the 2d Avenue—garroting and robbery of Samuel Smith of Brooklyn, in Maiden-lane, New York,—attempt to garrote a Bostonian in Elm-street—and the murderous beating of two policemen, Sanger of the 9th Ward, and Homan of the 4th, the former of whom will doubtless die,—these atrocities belong, also, to the history of the Bloody Week ending on Sunday last.

Citizens of all classes are justly alarmed at this state of things; the press is speaking out with no doubtful tones; the filling up of the Police ranks with energetic and vigilant men is loudly demanded; and the popular feeling engendered by the outraged I have noted, is entering not a little into the pending canvass for Charter officers, the election of which occurs on Tuesday of next week.

The elements of opposition to the further reign of King Fernando and his Plug Uglies, seem to be at last concentrating upon the nomination of Daniel F. Tiemann, for Mayor. Mr. T. is a wealthy and much respected citizen, a moderate, but decided Democrat in politics, and said to be a man of thoroughly tried and approved integrity. The Americans, Republicans, and a host of the former supporters of Wood are going to see what they can do toward electing Tiemann and redeeming the city from the rule of the political Sepoys that have so thro-

ughly mismanaged and disgraced it for the last three years.

James Rogers, the youth who killed James Swanson a few weeks ago in the 10th Avenue, has been convicted of the crime, and sentenced to be hung on the 16th of January next. His excuse was, that he "was drunk, and did not know whether he killed the man or not."

Oh, that all young men would avoid the use of that which destroys their reason, and impels to the commission of crimes whose penalty is—Death!

The great Collins steamer the Adriatic, whose departure for Europe has been so long delayed, is off at last—having sailed yesterday noon for Liverpool, with 38 passengers and \$400,000 in specie. She was to have left on Saturday, but failed, for reasons that are variously and contradictorily stated. The Adriatic is one of the largest of the Ocean Steamers, is very splendidly fitted up, and her officers and crew consist of no less than one hundred and eighty-eight men.

The news from Europe, by the last arrivals, is rather exciting. Numerous heavy failures have occurred in London, Liverpool and Glasgow, including two Banks in the city last named. The capture of the city of Delhi by the British forces is confirmed—they having obtained full possession of the city on the 21st of September.

It is gratifying to hear of the safe return of Senator Sumner, to Boston, by the Niagara, with improved health, after a sojourn of several months in Europe.

The Hon. Gerrit Smith of Peterboro', has been very ill, at the house of a relative in this city, but is now recovering.

Total mortality of the city last week, 320.

RAMBLER.

MAYOR WOOD'S MATERIAL.—The Irish American closes an article upon the New York Mayoralty election thus:

"There is not now a reasonable doubt that Mayor Wood's majority will be the largest ever polled for the same office. In addition to the large number of adopted citizens who, almost without exception, voted for him last year, over 2000 have been naturalized since the present canvass commenced, and of these it is not too much to say he will receive the support of ninety-nine out of every hundred."

THE NEW YORK POST OFFICE.—Telegraphic dispatches from Washington represent that the Government have substantially agreed with the committee of the New York Common Council, for a portion of the park as a site for the new Post Office, the only unsettled point being the time for payment.

NEWSPAPER THIEVES, BEWARE!—A lad in Boston, named Daniel Franklin, was detected a day or two ago, in stealing a newspaper, and was sentenced to six months imprisonment in the House of Industry.

VINCENNES, Ind., June 15th, 1853.

PROF. O. J. WOOD: As you are about to manufacture and vend your recently discovered Hair Restorative, I will state, for the sake of my country, that I have used it, and know of others who have used it; that I have for several years been in the habit of using other Hair Restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head of dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance, and all this without discoloring the hands that apply it, or the dress on which it drops. I would, therefore, recommend its use to every one desirous of having a fine color and texture to the hair.

Respectfully yours,

HON. WILSON KING.

DIETETIC SALERATUS

IS among the most important improvement of the present day. Every family through out this land should be acquainted with its intrinsic value, and thereby escape the many evils arising from the use of common Saleratus—the caustic impurities of which are acknowledged destructive to health, by physicians generally. Common saleratus has the elements of gastric ailment, and ready sets on the crating of the stomach, thus deranging the digestive organs and paying the way of Dyspepsia and diseases of every kind. Children are the greatest sufferers and frequently die from infantile diseases, which in former years, were successfully treated, even without medical aid. But here is an article to be relied on.

James Pyle's Dietetic Saleratus, the result of many experiments, is entirely different from everything heretofore in use.—The perfection reached in purifying it, makes it as harmless to the stomach as flour itself, while in point of nicety it surpasses the best baking soda, and will make bread, biscuit and cake, beautifully light, nutritious, and suitable for the most dyspeptic stomach. Every lady that tries it will use no other.

Beware of Counterfeits.—Our great success has brought out a multitude of poisonous imitations. The genuine is packed in white, half, and quarter packages, with the name of James Pyle on each. Manufacturing Depot, 313 Washington St., New York.

ALPINE HAIR BALM.

Restoring Gray Hair to its original Color. It is warranted to cure Baldness, Scald, Dandruff, itching and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the hair and gives a natural color without the use of Hair Dye.

It keeps the hair from falling off.

Mr. Mason, Sir:—I have found a Hair Restorative in your Alpine Balm, which has not merely changed the gray locks for their original color, but has given them a glossy hue, which before they never had.

JEREMIAH S. ROSS.

Providence, July 30, 1857.
C. A. P. Mason, Dear Sir:—I am now using the Alpine Hair Balm, which I had of you, with most happy results. On the 29th of June last, my hair (which had been gray for more than six years) was fast falling off, but on the third application of the Balm it ceased falling, and is now firmly rooted, and very nearly its original color. By the use of one bottle, I confidently expect a complete, permanent, luxuriant and original head of hair. If every gray haired skeptic would try it, they would soon become "living epistles, known and read of all men," as having used the Alpine Hair Balm. Yours, &c.

JOHN F. TRESSCOTT,

227 Westminster street, Providence.

TESTIMONY OF A LADY OVER 50 YEARS OF AGE.

Mr. Mason, Sir:—I write to inform you how pleased I am with your Alpine Hair Balm.—My hair has been gray for a number of years, and I have been obliged to wear a front piece and cap; but have always found a difficulty when having a bonnet on to keep the front piece from working back and showing the white hair. Finally I concluded I would try your Alpine Hair Balm; I used one bottle only and my hair has come back to its natural color, which was brown. My hair is now perfectly free from dandruff and is soft and shiny.

Very respectfully, SARAH LYON.

READ! READ! READ!—"Ye afflicted read" the following Certificate of cure of over 20 years' standing:

J. T. HELMOLD.—Dear Sir:—I have been troubled with an affection of the Bladder and Kidneys for over twenty years. I have tried physicians in vain, and at last concluded to give your genuine preparation a trial, as I had heard it highly spoken of. It afforded me immediate relief. I have used three bottles, and I have obtained more relief from its effects and feel much better than I have for twenty years previous. I have the greatest faith in its virtues and curative powers, and shall do all in my power to make it known to the afflicted. Hoping this may prove advantageous to you in assisting you to introduce the medicine. I am truly yours, M. McCORMICK.

Lewistown, Pa., Jan. 28, 1857.

Should any doubt, Mr. McCormick's statement, he refers to the following gentlemen.

LATEST NEWS.

BY TELEGRAPH

TO THE NEWPORT DAILY NEWS.

IMPORTANT FROM MEXICO. ANOTHER REVOLUTION IMPENDING.

COMONFORT'S FALL CONSIDERED CERTAIN.

NEW ORLEANS, Nov. 24.—The steamship Tennessee has arrived here from Vera Cruz with dates to the 21st, and from the city of Mexico to the 19th.

The country was in a most distracted condition, and another general revolution was impending. Resolutions were pending between the revolutionists and General Santa Anna, whom they undoubtedly intend for President.

Of the passengers by the Tennessee there are twenty three political exiles, and among them are Ex President Silas Jose, Col. Romero, and William Moran, who was imprisoned for a publication against the government of Zacaatecas.

Comonfort's fall was considered certain, and it was thought doubtful whether his life would be spared if he remained in the country.

THE NEW YORK WORKINGMEN.

NEW YORK, Nov. 25.—The workingmen yesterday assembled in Tompkins square and resolved to ask work of the Central Park Commissioners. A deputation waited on the Board in session in the afternoon and sent in a communication, but no notice was taken of it. The office was strongly guarded by policemen to prevent any outbreak.

DIED.

In Middletown on Tuesday evening the 24th, Mary Allen, widow of the late John Allen, in the 68th year of her age.

Funeral to-morrow at 11 o'clock, from the residence of Joshua Coggeshall, relations and friends are invited to attend.

In this City on Thursday Nov. 19th, Mrs. Sophia A. Potter, relict of the late Capt. Stephen Potter, aged 58 years 1 month and 12 days.

A CARD TO THE LADIES.
Dr. DUNN'S Golden Pectoral Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting irregularities, and removing all obstructions from whatever cause.

All medical men know, as well as many others, that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many complaints among young females. Headache, Pain in the Side, Palpitation of the Heart, Lethargy of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and many always be used successfully as a preventive.

Price \$1 per box. For sale at 132 Thames-st., corner Church-st., and at 12 Washington Square, opposite State House. Orders for the trade to be delivered will be supplied at lowest manufacturer's price. Ladies by enclosing \$1 to STEVENS & CO., Box 501, New York Post Office, can have the Pills sent (free of charge) by mail to any part of the country.

AMERICAN AND FOREIGN OFFICE.
R. H. EDDY, Solicitor of PATENTS
(Late Agent of U. S. Patent Office, Washington, under the Act of 1857.)
No. 76 STATE, OPPOSITE KILBY ST., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions; and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF A PATENT AGENT'S ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These enables his extensive library of legal and mechanical works, and full accounts of patent grants in the United States and Europe render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.
During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., as Solicitor of Patents, I have known him to be few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents
From the present Commissioner.

NOTICE. During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business at the Patent Office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

LOTTERIES.
GEORGIA LOTTERIES.
THE Lotteries of ANDERSON & SON, are chartered by the State of Georgia, and have sworn commissioners appointed by the State, to superintend their drawings, and certify that everything connected with the same is in a strictly honorable manner, and that the lotteries are parties who reside at a distance are as well protected as if they themselves were present at the drawings. Another fact which the managers call attention to, is that all persons have a legal right to send orders for tickets to Georgia, as lotteries are legalized by a special law in that State. A lottery is drawn at Savannah, Ga., about the 15th of every month, and another is drawn at Macon, Ga., every Saturday throughout the year. If no particular class is named, orders are filed by the first coming to the place after the communication comes to hand. The prices of tickets are from \$1 to \$10. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket and are so simple that none can fail to understand them. There is no combination of numbers, which has so mystified the community for years past. Prizes vary in amount from \$50 to \$50,000. Every prize being drawn, and result of drawing, or other information, forwarded to all purchasers. A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers: New Orleans Delta, Savannah News, New York Dispatch, and New York Atlas. Write your address plainly, and direct to

ANDERSON & SON, MANAGERS,
If no particular class is named, orders are filed by the first coming to the place after the communication comes to hand.

Prizes are paid in full: no percentage deducted from prizes, or in other lotteries. All communications are strictly confidential.

LOTTERIES.—The well known Mary and Consolidated Lotteries, of which R. H. ANDERSON & SON are the managers, are chartered by the State of Maryland, and a commission is given to the managers, who are sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that State. A lottery is drawn every day in the month, and a particular class is named, orders are filed in the first drawing to take place after the communication comes to hand. The prices of tickets vary from \$1.00 to \$20.00. No tickets however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tertiary combination. Prizes vary in amount from \$50 to \$100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after the drawing.

LOTTERIES.—The Lotteries of Samuel Swan & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State, and a lottery will be drawn every Saturday throughout the year, all orders received being filed in the drawing next to take place after the same comes to hand. According to the scheme on ticket in every ten sent draw a prize. Tickets are \$10; halves, \$5; quarters, \$2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from \$50 to \$50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers: New Orleans Delta, Mobile Register, Charleston Standard, Nashville Gazette, Atlanta Intelligencer, and New York Weekly Day Book. Write your address plainly, and direct to

S. SWAN & CO., AUGUSTA, GEORGIA.

Prizes paid in full—no percentage deducted from prizes as in other lotteries. All communications strictly confidential.

KEEP COOL!
W. F. Shaw's
PATENT GAS HEATING
—AND—
GAS COOKING STOVES.

THE only true principle whereby all unpleasant and injurious odors are avoided. This apparatus is warranted to cook the food for a family at one quarter part the cost of doing the same by any other gas stove ever offered to the public.

Secured by 8 American, 1 English and 1 French letters patent. Invented and patented by

W. F. SHAW.

The First Premium and ONLY GOLD MEDAL ever awarded on GAS STOVES by the Massachusetts Charitable Mechanic Association, was awarded to W. F. SHAW, who has also received a medal from the American Institute, N. Y.

These are the only desirable inventions for cooking or heating by gas ever offered to the public, and are the results of upwards of seven years' experiments and experience of the inventor and patentee.

W. F. Shaw's Patent Gas Stove Lamp, or Gas Heater, for boiling small quantities of water by being placed over any gas burner.

The undersigned having received the Agency for the sale of the above Stoves, offers them to the public as the very best article yet manufactured for cooking or heating by gas. They are economical and free from odor of any kind in operation, bake bread and meats superior to coal ovens, and should have a place in every household.

Satisfactory references from reliable parties using them in this city, can be had upon application at my office, where the public are invited to call and examine the articles.
